

LICS 2011

26th IEEE Symposium on Logic In Computer Science

Call for Workshop Proposals

<http://www2.informatik.hu-berlin.de/lics/lics11/>

The twenty-sixth IEEE Symposium on Logic In Computer Science (LICS 2011) will be held in Toronto, Canada, 21-24 June 2011.

Possible dates for workshops are Monday 20th June and Saturday 25th June, 2011 (i.e., one day before and one day after LICS).

Researchers and practitioners are invited to submit proposals for workshops on topics relating logic - broadly construed - to computer science or related fields. Typically, LICS workshops feature a number of invited speakers and a number of contributed presentations. LICS workshops do not usually produce formal proceedings. However, in the past there have been special issues of journals based in part on certain LICS workshops.

Proposals should include:

- A short scientific summary and justification of the proposed topic. This should include a discussion of the particular benefits of the topic to the LICS community.
- A discussion of the proposed format and agenda.
- The proposed duration, which is typically one day (two-day workshops can be accommodated too).
- Your preferred dates. This is important!
- Procedures for selecting participants and papers.
- Expected number of participants. This is important!
- Potential invited speakers.
- Plans for dissemination (for example, special issues of journals).

Proposals are due on the 16th November 2010, and should be submitted electronically to the Workshops Chairs:

Adriana Compagnoni: abc@cs.stevens.edu

Maribel Fernández: Maribel.Fernandez@kcl.ac.uk

Notifications will be sent by the 15th December 2010.

The Workshops selection committee consists of the LICS General Chair, LICS Workshops Chairs, LICS 2011 PC Chair and LICS 2011 Conference Co-Chairs.
