THURSDAY, JUNE 25, 2020

2020 Annual General Meeting

2 pm • Online (Zoom)

The Fields Institute has many ways of keeping our community engaged and involved in the activity ongoing at the Institute. A key event is our Annual General Meeting, which is a forum for Members of the Corporation and the Fields Institute community to get together, exchange ideas, and make decisions about future steps for Fields. The AGM is also where the Board of Directors reports on its stewardship of the Institute, Members consider Institute business like the election of auditors, and officers are elected.

Members of the Corporation attending the AGM can participate in discussions on current Institute affairs, ask questions of the Board, and vote on resolutions and any other matters that arise and come to a vote during the AGM.

The AGM also provides an opportunity to celebrate the communities with which we work, to recognize the successes, challenges, and new projects at the Institute, and to facilitate network building and knowledge sharing between Fields Institute stakeholders.
